

THE FISH GAME

Learn sustainable thinking – who will get the most fish?

Table of Contents

1.	Play a game!	1
2.	Discussion	1

1. Play a game!

- Visit the website of the Cloud Institute for Sustainability Education and go to the [“Fish game”](#).
- Read the instructions and start the game. (Attention: You need Adobe Flash Player (!))
- After playing: Did you reach the goal of catching more than 18 fish?

2. Discussion

- Read the analysis to get an idea of the concept behind the game.
- Take 5 minutes to reflect on the game. What did you realize? What was new? Write your thoughts down in about 100 words.
- Discuss in class: What is the message of the game? What does “sustainable fishing” mean?
- Can you apply the notion of “non-zero-sum games” on other aspects of life as well?
